Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 05 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Milder but mostly cloudy today with light rain for some.

Today:
Today will be much cloudier than yesterday, with just a few brighter interludes at times. It will stay mostly dry but the odd sporadic outbreak of rain is possible in places. It will feel milder with a light westerly breeze. Maximum temperature 11 deg C (52 deg F).

Tonight:
Staying generally cloudy overnight with a few spots of rain at times. A few clearer spells are likely, especially towards the south of the region. Mild and becoming breezier. Minimum temperature 8 deg C (46 deg F).

Saturday:
Some early brightness in the south, but otherwise cloudy and mild and becoming windy. Turning wet in Cumbria during the morning, with rain spreading to remaining areas during the afternoon. Maximum temperature 14 deg C (57 deg F).

Outlook for Sunday to Tuesday:
Cooler on Sunday but largely dry with bright spells, though remaining windy. Milder and cloudier on Monday with patchy rain arriving later. Rain perhaps developing more widely on Tuesday.
